

# Adam Kuziemski

Level 31 programmer

## About me

### Contact info

Mobile: (+48) 605 044 898

E-mail: kuziemski.a@gmail.com

## Experience (last two clients)

### Nordea Bank

05.05.2021 – 29.04.2022

Role: Front-end developer

#### Debit card ordering app

~4k LoC, hundreds of daily users

Tech stack: Angular 12, RxJS, TypeScript, Sass, Jasmine, ngx-translate, Cypress, Java 11

Responsibilities: Refactoring an existing environment and settings system to reduce the time and effort required to introduce new locales. Implementing parts of the app flow for new locales. Coordinating with various teams across the company to deploy and deliver functionalities. General code quality improvements: adding strict typing, unit testing.

#### Loan conversion app

~4k LoC, hundreds of daily users

Tech stack: Angular 12, RxJS, TypeScript, Sass, Jasmine, ngx-translate, Cypress, Java 11, AngularJS

Responsibilities: Implementing a simple state system to keep customer selection. Adjustments to improve accessibility. Unit testing components and services. Sharing knowledge about Angular and TypeScript features such as pipes, utility types, keyof, etc. Adjusting an old AngularJS app to include the conversion functionality and redirect to the new app.

### Crestt / Pekao

04.11.2019 – 30.04.2021

Role: Front-end developer

#### Banking app

~415K LoC (app) + ~85K LoC (library), thousands of daily users

Tech stack: Angular 9, RxJS, NGXS, TypeScript, Sass, i18n, custom UI/utility library based on Material Design

Responsibilities: Implementing mailing functionality for customer support. Adjustments of existing customer facing functionality for use in customer support setting. Driving minor UI/UX changes. Designing and implementing a protocol based on window.postMessage to communicate between IFrames, mainly for SSO purposes. Adding and extending features in custom UI library.

## Education

### Jan Długosz University in Częstochowa

01.10.2012 – 06.2015

Bachelor of Philosophy (didn't graduate)

# Skills

<b>JavaScript</b> ES6+	<b>Angular</b> Versions 5-13, 4 or below if needed
Array functions TypeScript Node.js	Angular Material Karma/Jasmine RxJS
<b>Styling/layout</b>	<b>Other</b>
HTML5 and Semantic HTML CSS3 CSS Grid CSS Variables Sass	English (TOEIC C1) Effective communication TDD, refactoring REST Git Scrum

# Personal

<b>Personal project</b> Project Pet (May 2020 – present) 3.5K LoC (frontend), 2.2K LoC (backend)
Tech stack: Angular 13, Angular Material 13, RxJS, Jasmine, Rust, Rocket, Diesel, PostgreSQL, Docker  A web app for a cat shelter I volunteer at. The goal is to help volunteers organize things such as cats' vet procedures, filling out prescriptions and tracking meds, everyday things that need to be done during shifts, planning chores for future shifts, etc.

<b>Interests/hobbies</b>	<b>Random facts</b>
Programming Music (Maschine, guitar, beatbox, vinyls) Reading (30-50 books per year) Puzzles (Rubik's cube, sudoku, jigsaw puzzles) Gaming Cooking & mixology Juggling Mechanical keyboards	I live with three cats. I volunteer at Kotylion. I have an IQ of 145 (Cattell scale). I use an ErgoDox EZ with Sakurios 62g as my daily driver. my current layout. I lived in the UK for a year and most people didn't realise I wasn't British. My reading list will last me about 50 years. I like spicy things.
