Experience (last two clients)

Massive Pixel Creation / Placester
01.09.2022 — 30.11.2024
Role: Team leader / Senior developer

Real estate agent app
~240k LoC, hundreds of daily users

Tech stack: Nx, Angular 15, RxJS, NgRx, Elf, TypeScript, Sass, Jest, Ionic, Nest.js, Prisma, TypeORM, MySQL

Responsibilities: Driving implementation of new features (chat, sold listings, mobile app, CRM), facilitating cooperation between teams, planning and performing refactors of core components, preparing releases, performing code reviews, sharing knowledge about the stack, maintaining npm dependencies.

B2BNetwork / Nordea Bank
05.05.2021 — 29.04.2022
Role: Front-end developer

Debit card ordering app
~4k LoC, hundreds of daily users

Tech stack: Angular 12, RxJS, TypeScript, Sass, Jasmine, ngx-translate, Cypress, Java 11

Responsibilities: Refactoring an existing environment and settings system to reduce the time and effort required to introduce new locales. Implementing parts of the app flow for new locales. Coordinating with various teams across the company to deploy and deliver functionalities. General code quality improvements: adding strict typing, unit testing.

Loan conversion app
~4k LoC, hundreds of daily users

Tech stack: Angular 12, RxJS, TypeScript, Sass, Jasmine, ngx-translate, Cypress, Java 11, AngularJS

Responsibilities: Implementing a simple state system to keep customer selection. Adjustments to improve accessibility. Unit testing components and services. Sharing knowledge about Angular and TypeScript features such as pipes, utility types, keyof, etc. Adjusting an old AngularJS app to include the conversion functionality and redirect to the new app.

Education

Jan Długosz University in Częstochowa
01.10.2012 — 06.2015

Bachelor of Philosophy (didn't graduate)

Skills

JavaScript
ES2022+

Array functions

TypeScript

Node.js

Angular
Versions 9-19, 8 or below if needed

Angular Material

Karma/Jasmine

RxJS

Signals

Styling/layout

HTML5 and Semantic HTML

CSS3

CSS Grid

CSS Variables

Sass

Other

English (TOEIC C1)

Effective communication

TDD, refactoring

REST

Git

Scrum

Personal

Personal project
Project: Pet (May 2020 — present)
23.5K LoC (frontend), 27.3 K LoC (backend), ~700 unit and integration tests

Tech stack: Angular 19, Angular Material 19, RxJS, ngx-translate, Jasmine, Cypress, Rust, Rocket 0.5, Diesel 2.1, PostgreSQL 14, Docker, Swagger, Bun

A web app for a cat shelter I volunteer at. The goal is to help volunteers organize things such as cats' vet procedures, filling out prescriptions and tracking meds, everyday things that need to be done during shifts, planning chores for future shifts, etc.

Interests/hobbies

Programming

Music (Maschine, bass, guitar, beatboxing, collecting vinyls)

Reading

Puzzles (Rubik's cube, sudoku, jigsaw puzzles)

Gaming

Astronomy

Cooking & mixology

Juggling

Mechanical keyboards

Crocheting

Random facts

I live with three cats.

I volunteer at Kotylion.

I have an IQ of 145 (Cattell scale), if that amounts to anything.

I use a Keychron Q11 as my daily driver.

I lived in the UK for a year and most people didn't realise I wasn't British.

My reading list will last me about 50 years.

I like spicy things.
