Experience

Crestt
04.11.2019 — present
Role: Front-end developer

Banking app
~415K LoC (app) + ~85K LoC (library), thousands of daily users

Tech stack: Angular 9, RxJS, NGXS, TypeScript, Sass, i18n, custom
UI/utility library based on Material Design

Responsibilities: Implementing mailing functionality for customer support.
Adjustments of existing customer facing functionality for use in customer
support setting. Driving minor UI/UX changes. Designing and implementing a
protocol based on window.postMessage to communicate between IFrames, mainly
for SSO purposes. Adding and extending features in custom UI library.

Accenture
01.07.2017 — 31.10.2019
Role: Front-end developer

First project (August 2017 — May 2018)
36K LoC, 2K unique logins per day during peak

Tech stack: Angular 4, Material 4, Sass, TypeScript, RxJS, SalesForce (as a
REST server/database), Cordova (for iOS builds), Webpack (for AWS S3)

Responsibilities: Development and maintenance of a hybrid mobile/web
customer management app for salespeople. Creating and refactoring
components, services and route guards. Performance improvements, reducing
request size/time.

Second project (January 2018 — October 2019)

Tech stack: Lightning Components (HTML5-ish/CSS/JavaScript), SalesForce

Responsibilities: Development and maintenance of a rewrite of an Angular
app from the first project into SalesForce's proprietary Aura/Lightning
framework. Implementing custom UX features, an electronic signature
functionality, integration with an ID/barcode scanning app. Performance
improvements. Redesign and implementation of an improvement to the existing
settings system.

Education

Jan Długosz University in Częstochowa
01.10.2012 — 06.2015

Bachelor of Philosophy (didn't graduate)

Skills

JavaScript
ES6+

Array functions

TypeScript

Node.js

Angular
Versions 5-11, 4 or below if needed

Angular Material

Karma/Jasmine

RxJS

Styling/layout

HTML5 and Semantic HTML

CSS3

CSS Grid

CSS Variables

Sass

Other

English (TOEIC C1)

Effective communication

TDD, refactoring

REST

Git

Scrum

Personal

Personal project
Dialogues and Dragons (March 2018 — present)
5.5K LoC

Tech stack: Angular 11, Angular Material 11, RxJS, Jasmine

A web app that lets users create content for games. Inspired by Bethesda Softworks® Creation Kit. Features include creating/editing items, NPCs, quests and dialogue trees. Currently working on improvements to a system that will let content creators decide what happens when, for example, a dialogue option is chosen or an item is used.

Interests/hobbies

Reading (30-50 books per year)

Music (guitar, beatbox, vinyls)

Puzzles (Rubik's cube, sudoku, jigsaw puzzles)

Gaming

Cooking & mixology

Juggling

Mechanical keyboards

Random facts

I live with two cats.

I volunteer at Kotylion.

I have an IQ of 145 (Cattell scale).

I use an ErgoDox EZ with Sakurios 62g as my daily driver.

I lived in the UK for a year and most people didn't realise I wasn't British.

My reading list will last me about 50 years.

I like spicy things.
