## Experience (last two clients; you can find more on my website)

### Koia Software / AdminFlow

 2026.02 – present

**Role:** Senior developer

#### Accounting dashboard

~620k LoC, hundreds of daily users

**Responsibilities:** Implementation of features: time tracking, resource management, bulk task operations, and copying document metadata. Writing e2e and unit tests, refactoring core components and services. Performing code reviews and mentoring. Working closely with QA to fix regressions and edge cases. Technical analysis of future work items in preparation for Sprint Refinements. Paying off and managing technical debt. Migrating CI/CD flow from CircleCI to GitHub Actions. Creating exhaustive boy-scout rule instructions for agentic workflows. Modifying agent skills to increase quality of resulting code.

#### ▼ Tech stack

- Angular 22
- RxJS
- Signals
- NgRx
- TailwindCSS
- Material
- Django
- FastAPI
- PostgreSQL 16
- ngx-translate
- Playwright
- Vitest

### Massive Pixel Creation / Placester

 2022.09 – 2024.11

**Role:** Team leader / Senior developer

#### Real estate agent app

~240k LoC, hundreds of daily users

**Responsibilities:** Driving implementation of new features (chat, sold listings, mobile app, CRM). Designing, building, and maintaining integrations between microservices. Facilitating cooperation between teams to ensure smooth delivery. Working closely with DevOps and 1st line support to solve customer issues. Planning and performing refactors of core components. Preparing releases. Performing code reviews. Sharing knowledge about the stack. Maintaining npm dependencies - migrating Angular from v12 to v15. Resolving around 3500 circular dependencies between various modules.

#### ▼ Tech stack

- Nx
- Angular 15
- RxJS
- NgRx
- Elf
- Sass
- Jest
- Ionic
- Nest.js
- Prisma
- TypeORM
- MySQL
- GraphQL

## Education

### Jan Długosz University in Częstochowa

 2012.10 – 2015.06

Bachelor's in Philosophy (didn't graduate)

Specialty: social communication

I was mostly interested in Zen Buddhism, Martin Heidegger, and Henry David Thoreau. The coursework included psychology, sociology, IP law, HR management, formal logic, debating, and ethics. I believe this unique educational background allows me to approach (not only) technical challenges and discussions from different perspectives, as well as come up with favorable, sustainable, and straightforward solutions.

# Skills

## JavaScript

ES2022+

TypeScript

Node.js

NestJS

Bun (freshly picked up)

## Angular

Versions 9-22, 8 or below if needed

Angular Material and CDK

Karma/Jasmine

RxJS

Signals (resources, forms)

## Styling/layout

HTML5 and Semantic HTML

CSS3

CSS Grid

CSS Variables

Scss

Responsive design

## Other

English (TOEIC C1)

Effective communication

TDD, refactoring

REST

Git

Scrum (SM 1 certificate nr. 318872)

# Personal

## Personal project

 2020.05 – present

### Project: Pet

34K LoC (frontend), 38K LoC (backend), ~930 unit and integration tests

#### Tech stack:

Angular 21, Angular Material, RxJS, ngx-translate, Jasmine, Cypress, Rust, Rocket 0.5, Diesel 2.3, PostgreSQL 16, Redis

A web app for a cat shelter I volunteer at. The goal is to help volunteers organize things such as cats' vet visits, filling out prescriptions and tracking meds, everyday things that need to be done during shifts, planning tasks for future shifts, etc.

## Interests/hobbies

Programming

Music (Maschine, bass, guitar, beatboxing, collecting vinyls)

Reading

Astronomy and astrophotography

Puzzles (Rubik's cube, sudoku, jigsaw puzzles)

Gaming

Cooking & mixology

Juggling

Mechanical keyboards

Crocheting

## Random facts

I live with three cats.

I volunteer at Kotylion.

I own an Askar 91F and a SkyWatcher EQ5 Pro, and I take them stargazing as often as I can.

I have an IQ of 145 (Cattell scale), if that amounts to anything.

I use a Keychron Q11 as my daily driver.

I lived in the UK for a year and most people didn't realise I wasn't British.

My reading list will last me about 50 years.

I like spicy things.
